Dear Harold:

Bishop on Frost Show televised 9/23. Stated Ray an inept, comic clod who could never have done it by himself. Believes plotters reside in Birmingham because (?) Ray purchased and exchanged rifles there. Accepts Raul. Never explicitly states on Frost that Ray killed Kat.

The approach is more honest than Huie's is ingenuous.

The international aspects of the case alone preclude a simple "honest" plot. Huie knew this and Bishop avoids it.

Take your chance.

Best Wishes,

EC
